20-A-00013	I am writing this letter to file an appeal to a Freedom of Information Act (FOIA) request for records I had previously submitted to the CPSC. Please see document entitled " (AACL) Revised FOIA Appeal With CPSC" to read the content of my appeal with CPSC. My request for records not stated in the content of the appeal are the following. Has the CPSC ever engaged in mediation session with the National Archives Records Administration (NARA) Office of Government Information Services (OGIS) as a direct consequence of a FOIA request for records which was submitted with them? If yes, under which circumstances was it? Will you join me in moving to call upon all documentation within your possession of mediation session CPSC participated in with the NARA (OGIS) since January 01st 2010 as a direct consequence of a FOIA request for records which was submitted with them to be promptly disclosed to either my e-mail or in the alternative my mailing address? Have a great day.	Appeal	Association For The Advancement of Civil Liberties
20-A-00014	We are appealing this response, and request that you release these materials with appropriate redactions. 20-F-00315	We are requesting any and all documentation related to the public hearing on carbon monoxide detectors held by the United States Consumer Product Safety Commission (the "CPSC") on February 21-22, 1996 (the "Public Hearing"). The Public Hearing was originally scheduled for January 23-24, 1996, but was delayed due to the 1996 government shutdown. The Public Hearing was held in room 420 of the East-West Towers Building, 4330 East West Highway, Bethesda, Maryland (the original documentation for the public hearing notice can be found in the Federal Register - Volume 60, No 205 - Tuesday October 24, 1995, page 54478). Prior to the Public Hearing, the CPSC solicited written submissions and requests for oral presentations from individuals, associations, and firms with substantial information or technical comments on scientific, medical, and other technical information related to carbon monoxide detectors. Specifically, the CPSC solicited information related to: the health effects of CO; information related to the Chicago 1994 unexplained CO alarm activations; expected levels of CO inside and outside homes including normal CO levels and CO levels during rush hour traffic and during temperature inversions; CO detector standards; human factors issues including effective alarm communication and ability of consumers to differentiate between warning signals and urgent alarms, and the effect of unexplained alarms on consumer attentiveness to alarms; needs of individuals who respond to CO detector alarm calls including to what extent first responders and utility company personnel were equipped with the appropriate tools to measure home CO levels, and to what extent educational programs for first responders had been developed and implemented around the country; and	FOIA	NCOAA

	consumer needs including consumer use of CO hotlines, and manufacturers' procedures for responding to hotline calls and unexplained activations. We are requesting any and all information, documents (including electronically transmitted messages and documents), notes and/or recordings pertaining to the above and all other information related to the Public Hearing, including, but not limited to, all information and documents submitted by the public; oral presentation abstracts; list of meeting attendees for both days; audio recordings and/or transcripts; and any meeting notes and comments of specific attendees. We are also requesting any documentation (including electronically transmitted messages and documents) related to follow-up meetings, discussions, and conclusions that relate to the Public Hearing, particularly as it relates to UL Standard 2034.

20-F-00328	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I am requesting information about your agency's policies regarding ex parte meetings during rulemaking. For additional background on the subject of ex parte meetings, it may be useful to refer to a recent report and related materials by the Administrative Conference of the United States' report on ex parte meetings. Specifically, I am interested in the following: Does your agency have a written policy governing ex parte communications during rulemaking? If your agency does have a written policy, is it possible to find on your agency's website or somewhere else on the internet? If your agency does have a written policy, I am requesting a copy of that policy. Moreover, regardless of whether there is an informal or formal policy about ex parte meetings during rulemaking, I am interested in clarification about record-keeping relating to these meetings and also accessibility of these records. Does your agency create any logs/records of who has participated in ex parte meetings and what subjects have been discussed?	FOIA	Yale University

	Do such records typically identify meeting participants by name, on the agency side or the outside parties? Do such records typically identify the organizations that these outside parties represent? What is the retention policy of your agency regarding these records? If there is a formal written policy, I am requesting a copy of that policy. If records are retained, are they retained electronically or on paper? If the records are retained electronically, are the records kept in a machine-readable form or are the documents maintained as scans of print document? If the records are retained electronically, are they available to the public on the internet? If so, where. If electronic records are not available publicly on the internet, I am requesting a copy of all electronic records/logs of ex parte meeting related to rulemaking by your agency. If records are only retained on paper, I am requesting two examples of such records and an estimate of how many pages of total records the agency has.
