

Manufacturer: O-I
Model: Snap Cap
ASTM Type: IIIA (1)

Description:

This closure is a one-piece plastic snap cap (Figure 1).

Figure 1

The closure is opened by aligning the tab on the closure with the arrow on the container and then pushing up on the tab (Figure 1). The inside of the closure has a rectangular ridge in the same location as the tab (Figure 2A). The rectangular ridge inside the closure fits into a groove in the container neck finish where the arrow is located, allowing the package to be opened (Figure 2B).
